Project title: The Biogeochemistry of Sublacustrine Geothermal Vents in Yellowstone Lake

Principal investigator: Dr. Val Klump  
Phone: 414-382-1700  
Email: vklump@uwm.edu  
Address: Great Lakes WATER Institute  
University of Wisconsin at Milwaukee  
600 E. Greenfield Ave  
Milwaukee, WI 53204

Additional investigator(s): Carmen Aguilar, James Maki, Robert Paddock, Russell Cuhel

Findings: We did not pursue any fieldwork in 2000, but will be conducting ROV operations on the Yellowstone Lake in 2001-2003. These studies will continue to focus on the microbiology and biogeochemistry of the geothermal systems in Yellowstone Lake.
